Thank you for your interest in TVA's Supply Chain and for visiting our Supplier Connections Portal. The role of Supply Chain is a critical component in accomplishing TVA's overall goals of lowering costs and improving operational efficiency. Our core functions are contract management, which includes all activities of the contracting process to provide materials and services at the lowest total cost of ownership (TCO), and materials management, which effectively manages warehousing, investment recovery and logistics operations in order to optimize inventory and conserve working capital.

As you navigate through this site, you will learn more about our organization as well as about doing business with TVA including our supplier diversity commitment. Again, thank you for visiting us online. We recognize our Suppliers as partners in working to make TVA better and we value your input. We are continually updating our site, so we encourage you to visit often.
