

INTRODUCTION

The information in this handbook is supplied to support the functions of classification and procurement of materials and services throughout TVA.

Sourcing Groups and Elements

Sourcing Groups are groupings of products and/or services within the same or related industries (“marketing groups”) or by TVA internal operations. Sourcing Groups are represented by a 3 character initial (i.e. BLD = Building Materials). Each Sourcing Group is composed of multiple Sourcing Elements.

Sourcing Elements are groupings of closely related products and/or services within a Sourcing Group. Elements group items and/or services that are similar in physical or performance characteristics. These items are often requisitioned or issued together. Equipment and material elements begin with a numeral while services codes begin with an alpha character.

The following is an example of a Sourcing Group with an equipment/material code as well as a service code.

BLD Building Materials

- 5510J Building Materials - Lumber
Includes lumber, millwork, plywood, veneer, and related lumber products (doors, etc.)

- N072A Installation - Floor Coverings
Includes carpet, tile, linoleum

PVF Pipe, Valves & Fittings

- 4710Z Pipe, Tubing, Fittings - Pipe, Pipe Hangers
Includes Metallic Pipe, Cast Iron Pipe, Plastic Pipe and Boiler Tube

- J048A Repair, Inspect, Install - Pipe Valves and Fittings
Includes Equipment and Materials Testing; Maintenance, Repair Valves; Other Quality Control, Testing; Pipe, Valves, Fittings; Quality Control Services - Pipe-Tubing-Hoses; Quality Control Services - Valves; Technical Representative Services; Valve Inspection; Valve Repair
